PELLEVÉ™ WRINKLE REDUCTION & SKIN TIGHTENING

Pellevé is a non-surgical procedure to safely treat facial wrinkles with virtually no pain and little downtime. The Pellevé system utilizes advanced radiowave technology that heats the deep layers of the skin without damaging the epidermis, or top layer. Pellevé is the only system that doesn't require anesthesia or skin cooling. The heat causes the collagen in the skin to contract and tighten. After treatment, the skin begins to produce new collagen, which improves skin firmness. The result is a naturally refreshed appearance that can last up to six months. \$150 – \$1000

GENTLE LASER HAIR REMOVAL

Enjoy Silky Smooth Skin as you rid unwanted hair and welcome permanent laser hair removal. Highly focused lasers and intense beams of light destroy hair follicles beneath the skin's surface, preventing hair growth. Multiple treatments are required for permanent removal of active follicles. Treatments are needle free and do not require anesthesia. A consultation will help decide if this procedure is right for you.
